Dear Arneuld:

Further to our discussion in Washington in December, I have given the matter considerable thought and feel that it would not be wise to discuss our activities with American scientists until we have had an opportunity to have them discussed thoroughly within an entirely Canadian group.

I expected to have a report on our activities in the hands of Doctor Solandt before our next visit to Washington but for one reason or another, mostly great activity in the Section, I have not been able to get the report in shape. We expect to be in Washington during the week of January 21st and it looks as though the report will have to wait until sometime after I get back.

I shall, however, bring with me to Washington some of the data and my draft report so that you can see at first hand what we have been doing. I am sure that you will agree that it would be premature to discuss these matters with nationals of another country before we have them cleared by our own people.

With kindest personal regards.

Yours very truly,

(W.B. Smith)
